Adoption

Providers Name: Children's Home Society of Florida, Inc. (CHS)

Description:

- The Network Provider shall furnish pre-adoption, adoption, and post-adoption services to children in the care and custody of the State that have been referred by who are available for adoption, who are on appeal, who have a goal of adoption, and to prospective and approved adoptive parents in accordance with ChildNet's mission.

Target Population /Eligibility:

- Children age birth to eighteen (18) years old, whose parents' parental rights have been terminated and who have a permanency goal of adoption, including children whose parent's termination of parental rights may be under appeal.

# of Clients served:

- All clients referred by ChildNet or the Court for adoptive services.

Outcome Measures:

- Percentage of the children served shall not experience a recurrence of maltreatment, verified or indicated, within 12 months after termination of services.
- Percentage of children with finalized adoptions will have adoptions finalized within 24 months of the latest removal, excluding OTI/ICPC.
- Percentage of the identified sibling groups referred to the Network Provider and placed with an adoptive family will be placed together.
- At least 155** adoptions shall be finalized during state fiscal year 2013-2014
- Percentage of children placed for adoption through this agreement will have their adoption finalized within 12 months of referral to the Network Provider
- Percentage of adoptive family home studies will be completed within 3 months of MAPP or other state certified training completion.
- Percentage of children referred to the Network Provider with an identified placement will have their adoption finalized within 90 days.
- Percentage of children shall not have any of the following errors as of thirty (30) days after the end of each six (6) month Adoption and Foster Care Analysis and Reporting System (AFCARS) report period.

Diversion/Family Preservation

Providers Name: Father Flanagan Boys Town

Description:

- Diversion and Family Preservation services are in-home family preservation services delivered by a professional for families who volunteer to accept these services and whose children are at imminent risk of removal from the home due to abuse, neglect, or abandonment. If the child's well-being and safety cannot be ensured, Diversion and Family Preservation services are not appropriate. Diversion and Family Preservation services are a collaborative effort between ChildNet and its Network Providers to enhance the quality of the service delivery system provided under the Master Agreement between ChildNet and the Department. Network Provider understands that the joint mission of the Department and ChildNet in entering into the Master Agreement under which Network Provider is serving as a subcontractor to ChildNet is to ensure the safety, permanency and well-being of the child.

Target Population /Eligibility:

- Families eligible for services under this subcontract must reside in Palm Beach County and be referred by ChildNet or the Child Protective Investigator. Families in which children are at imminent risk of sexual abuse or physical endangerment perpetrated by a member of their immediate household are not eligible to receive family intervention services unless the perpetrator is in, or has agreed to enter, a treatment program and the safety of the children may be enhanced through receipt of Diversion and Family Preservation services. Acceptance of services is voluntary for families with child victims of abuse, neglect, or abandonment.

- Network Provider is responsible for administration and provision of services, which may include, but is not limited to, Family Preservation and Diversion services in the geographic area from Boca Raton through East of State Road 7 and South of Okeechobee Boulevard.

- Families designated **safe high/very high risk** using the Florida Safety Decision Making Methodology.

- Families designated **unsafe/non-judicial** using the Florida Safety Decision Making Methodology.

# of Clients served:

- There is no limit to the number of clients served.

Outcome Measures:

- Percent of children with no verified maltreatment while receiving in-home services.
- Percentage of families having no verified maltreatment within 6 months of case closure.
- Percentage of children under supervision who are required to be seen a minimum of once every thirty (30) days, who are seen a minimum of once every thirty days.

- Percentage of children remaining with their families 6 months following discharge.
- Percentage of families for whom a Family Assessment was completed within 7 days of the first face-to-face contact.
- Percentage of families for whom a Family Services Plan was completed within 14 days of the first face-to-face contact.
- Percentage of families who received a Family Services Plan and successfully completed the program.
- Percentage of children enrolled in the Diversion/Family Preservation program for 10 weeks or more who demonstrate an improved functioning as demonstrated by the pre- and post-Strengths and Stressors assessment.

Placement Partnership Program

Provider: Henderson Behavioral Health

Description:

- The Placement Partnership Program (the "Program") is designed to respond to the urgent need to preserve the placements of youth at risk of placement breakdown, whether these youth reside in foster homes, group homes, with their families, or with relative/non-relative caregivers. The program will provide targeted children and families necessary support in an effort to stabilize placements in the foster care system or prevent entry into the foster care system. The Program is a collaborative effort between ChildNet and its network providers to enhance the quality of the service delivery system provided under the Master Agreement between ChildNet and the Department. Network Provider understands that the joint mission of the Department and ChildNet in entering into the Master Agreement under which Network Provider is serving as a subcontractor to ChildNet is to ensure the safety, permanency, and well being of the child, and the preservation and stability of families.

Target Population/Eligibility:

- The program targets children whose mental health or behavioral condition resulted in functional impairment which interferes with or limits the child's role or functioning in family, school, or community activities. Specifically, the clients to be served are children throughout Broward and Palm Beach Counties that are in need of services to stabilize their placements.

- As a secondary focus, the program shall serve children with extraordinary needs as identified in Florida Statue 409.1676. The dependent child must have serious behavioral problems or have been determined to be without the options of either reunification with family or adoption. Also, the dependent child must meet one the following criteria:

    - An adjudication of delinquency and be on conditional release status with the Department of Juvenile Justice.
    - A history of physical aggression or violent behavior toward self or others, animals, or property within the past year.
    - A history of setting fires within the past year.
    - A history of multiple episodes of running away from the home or placements within the past year.
    - A history of sexual aggression toward other youth

Outcome Measures:

- Percentage of children contacted in the home within 48 hours of the referral
- Percentage of clients whose placements are stabilized.
- Percentage of children served for whom individualized plans of care are developed within 30 days
- Percentage of children served for whom individualized recommendations are made to the Child Advocate within 7 days of initial intervention
- Percentage of children that have participated in the program and do not enter the dependency system

- Percentage of families for whom a follow-up survey shows a linkage to any requested services

Residential Service Area

Residential Group Care

Providers Name: The Children's Place at Home Safe (Libra House)

Description:

- Residential group care program services ("The Program") shall ensure the safety and well-being of dependent children while providing twenty-four hour a day room, board, care, and supervision that addresses each child's physical, social, educational and emotional needs. The Children's Place at Home Safe community-based Specialized Therapeutic Group Home Program is designed to provide intensive services to children who are exhibiting moderate to severe emotional disturbance and are in need of a highly structured and supervised setting. The program focuses on the deinstitutionalization of emotionally disturbed adolescent males and females, who have had a failure to respond successfully to previous intervention/rehabilitation approaches. The program is designed to therapeutically assist the children in the resolution of any past trauma issues that have led to their current emotional and behavioral condition.

Target Population /Eligibility

- The Provider shall serve dependent children who are referred by ChildNet's Behavioral Health Specialists that meet the provider's written admission criteria. The Children's Place at Home Safe Libra Program's target population for each group home is emotionally disturbed adolescent boys and girls, between the ages of 8 to 17, who have a history of behavioral difficulties, exhibit persistent emotional problems, and have a primary psychiatric diagnosis listed in the DSM-IV or ICD-9-CM. A child who can be better served in a less restrictive environment is not eligible for admission into this program.

# of Clients served:

- 10 Male/Females

Outcome Measures:

- Percentage of children who are free from incidents of verified abuse/ neglect while in the residential program.
- Percentage of clients who are free from incidents of child-on-child abuse in each residential program.
- Percentage of children in the program 30 days or more who have received at least one physical and follow-up care as recommended during the year.
- Percentage of children residing in the program for 30 days or more who have received annual and semi-annual dental visits and follow-up care as recommended during the year.
- Percentage of files containing up-to-date medication logs for each child in the program who is prescribed medication.
- Percentage of children residing in the program for at least 6 months who demonstrate improved behavior and functioning, as measured by the CGAS, CFARS, or another assessment tool approved by Contract Manager.

- Percentage of children residing in the program for at least 6 months who maintain passing grades (GPA of 1.0 or above) or improve academically in school, based on letter grade average or GED progress.
- Percentage of children age 13 or older residing in the program 6 months or more who are making progress on the IL goal(s) identified in their treatment/service plan.
- Percentage of clients where no 30 day notice is given for the replacement of any child or another unapproved discharge.
- Percentage of children residing in the program for 30 days or more who were satisfied with the program at discharge/post-discharge.

Residential Group Care

Providers Name: The Children's Place at Home Safe (Home Safe Boys)

Description:

- Residential group care program services ("The Program") shall ensure the safety and well-being of dependent children while providing twenty-four hour a day room, board, care, and supervision that addresses each child's physical, social, educational and emotional needs. The Children's Place at Home Safe Boy's Group Home is designed to provide intensive services to teenage boys exhibiting oppositional and defiant behavior who are in need of a highly structured and supervised setting. These teenagers may have experienced multiple placement failures and typically exhibit maladaptive behaviors that make placement difficult, for example, running away, truancy, and authority defiance. These boys present themselves with behaviors and actions more representative of a classic juvenile delinquent, but do not meet the Department of Juvenile Justice's criteria for placement.

Target Population /Eligibility:

- The Home Safe Boy's Group Home serves adolescent and teenage boys ages of 13 to 17, exhibiting mental health and/or behavioral issues not related to serious cognitive or developmental disabilities. These boys require a highly restrictive group care environment and are in need of supervision by skilled and highly trained staff who can manage clients with difficult behaviors. At the time of admission, these boys are not capable of handling responsibility and living in a foster home type setting and require 24-hour continuous supervision.

# of Clients served:

- 12 Males

Outcome Measures:

- Percentage of children who are free from incidents of verified abuse/ neglect while in the residential program.
- Percentage of clients who are free from incidents of child-on-child abuse in each residential program.
- Percentage of children in the program 30 days or more who have received at least one physical and follow-up care as recommended during the year.
- Percentage of children residing in the program for 30 days or more who have received annual and semi-annual dental visits and follow-up care as recommended during the year.
- Percentage of files containing up-to-date medication logs for each child in the program who is prescribed medication.
- Percentage of children residing in the program for at least 6 months who demonstrate improved behavior and functioning, as measured by the CGAS, CFARS, or another assessment tool approved by Contract Manager.

- Percentage of children residing in the program for at least 6 months who maintain passing grades (GPA of 1.0 or above) or improve academically in school, based on letter grade average or GED progress.
- Percentage of children age 13 or older residing in the program 6 months or more who are making progress on the IL goal(s) identified in their treatment/service plan.
- Percentage of clients where no 30 day notice is given for the replacement of any child or another unapproved discharge.
- Percentage of children residing in the program for 30 days or more who were satisfied with the program at discharge/post-discharge.

Residential Group Care

Providers Name: Children's Home Society of Florida, Inc. (Nelle Smith)

Description:

- Residential group care program services shall ensure the safety and well-being of dependent children while providing twenty-four hour a day room, board, care, and supervision that addresses each child's physical, social, and emotional needs. Children's Home Society's (CHS) Nelle Smith Residence for Girls provides residential group care and supervision for teenage girls in foster care. The program is designed primarily for teenage girls who have been in the foster care system, have repeated failed placements, and are now in need of a more structured group home setting.

Target Population /Eligibility:

- The Provider shall serve dependent children who are referred by the Intake Placement Advocate (IPA) or SafePlace staff that meet the provider's written admission criteria. CHS Nelle Smith Residence for Girls serves teenage girls between the ages of 13 and 18, who are exhibiting emotional, behavioral and/or psychiatric disturbances. These teenage girls require a more restrictive group care environment, where the participants are in need of 24-hour awake supervision and are currently not considered capable of handling responsibility and living in a family-type setting.

# of Clients served:

- 12 Females

Outcome Measures:

- Percentage of children who are free from incidents of verified abuse/ neglect while in the residential program.
- Percentage of clients who are free from incidents of child-on-child abuse in each residential program.
- Percentage of children in the program 30 days or more who have received at least one physical and follow-up care as recommended during the year
- Percentage of children residing in the program for 30 days or more who have received annual and semi-annual dental visits and follow-up care as recommended during the year.
- Percentage of files containing up-to-date medication logs for each child in the program who is prescribed medication.
- Percentage of children residing in the program for at least 6 months who demonstrate improved behavior and functioning, as measured by the CGAS, CFARS, or another assessment tool approved by Contract Manager.
- Percentage of children residing in the program for at least 6 months who maintain passing grades (GPA of 1.0 or above) or improve academically in school, based on letter grade average or GED progress.
- Percentage of children age 13 or older residing in the program 6 months or more who are making progress on the IL goal(s) identified in their treatment/service plan.

- Percentage of clients where no 30 day notice is given for the replacement of any child or another unapproved discharge.
- Percentage of children residing in the program for 30 days or more who were satisfied with the program at discharge/post-discharge.

Residential Group Care

Providers Name: Hope House Florida, Inc.

Description:

- The Hope House Florida girl's group home is designed to provide intensive residential and support services to females, ages 6-17, who have been involved in domestic minor sex trafficking and may display other risk factors such as truancy, runaway behavior, and are in need or a highly structured and supervised setting. These youth may have experienced multiple placement failures and typically exhibit maladaptive behaviors that make placement difficult, for example, running away and authority defiance. These girls may present with involvement in the Juvenile Justice system but do not meet the Department of Juvenile Justice's criteria for residential commitment. Residential group care services shall ensure the safety and well-being of dependent children while providing twenty-four hour a day room, board, care, and supervision that addresses each child's physical, social, and emotional needs

Target Population /Eligibility:

- The Hope House Florida girl's group home serves females who are victims of domestic sex trafficking ages 6 to 17 who are exhibiting emotional, behavioral and/or psychiatric difficulties. These girls have been involved in domestic minor sex trafficking and may display other risk factors such as truancy, runaway behavior, and are in need or a highly structured and supervised setting that provides supervision by skilled and highly trained staff who can respond to challenging behaviors using a victim-centered, non-punitive approach.

# of Clients served:

- 5 Females

Outcome Measures:

- Percentage of children who are free from incidents of verified abuse/ neglect while in the residential program.
- Percentage of clients who are free from incidents of child-on-child abuse in each residential program.
- Percentage of children in the program 30 days or more who have received at least one physical and follow-up care as recommended during the year
- Percentage of children residing in the program for 30 days or more who have received annual and semi-annual dental visits and follow-up care as recommended during the year.
- Percentage of files containing up-to-date medication logs for each child in the program who is prescribed medication.

Residential Group Care

Providers Name: Place of Hope Inc.

Description:

- Residential group care program services shall ensure the safety and well-being of dependent children while providing twenty-four hour a day room, board, care and supervision that addresses each child's physical, social, and emotional needs. Place of Hope (POH) provides residential group care primarily designed to provide siblings, who are in foster care, with the opportunity to live together in a nurturing and stable home-like setting.

Target Population /Eligibility:

- The Provider shall serve dependent children who are referred by the Intake Placement Advocate (IPA) or SafePlace staff that meet the provider's written admission criteria. POH primarily serves sibling groups of two or more children, between the ages of 0 and 18 who are exhibiting emotional and behavioral difficulties. The children's behavior and emotional difficulties have been a barrier to their placement in a family foster home. Although the Provider's primary focus is sibling groups, at their discretion, they may accept children who are not part of a sibling group, as long as they meet the Provider's admission criteria.

# of Clients served:

- 64 Males/Females

Outcome Measures:

- Percentage of children who are free from incidents of verified abuse/ neglect while in the residential program.
- Percentage of clients who are free from incidents of child-on-child abuse in each residential program.
- Percentage of children in the program 30 days or more who have received at least one physical and follow-up care as recommended during the year
- Percentage of children residing in the program for 30 days or more who have received annual and semi-annual dental visits and follow-up care as recommended during the year.
- Percentage of files containing up-to-date medication logs for each child in the program who is prescribed medication.
- Percentage of children residing in the program for at least 6 months who demonstrate improved behavior and functioning, as measured by the CGAS, CFARS, or another assessment tool approved by Contract Manager.
- Percentage of children residing in the program for at least 6 months who maintain passing grades (GPA of 1.0 or above) or improve academically in school, based on letter grade average or GED progress.
- Percentage of children age 13 or older residing in the program 6 months or more who are making progress on the IL goal(s) identified in their treatment/service plan.

- Percentage of clients where no 30 day notice is given for the replacement of any child or another unapproved discharge.

Residential Group Care

Providers Name: Place of Hope Inc. (Joann's Cottage)

Description:

- Residential group care maternity program services shall ensure the safety and well-being of dependent children while providing twenty-four hour a day room, board, care, and supervision that addresses each girl's physical, social, and emotional needs. Place of Hope's Joann's Cottage group home for pregnant teenage girls and teen mother provides residential group care for pregnant teenage girls and teen mothers in foster care and their babies. The program is designed for teenage girls who are in need of parenting skills and independent living skills to prepare them for self-sufficiency. The program will provide the mothers and their infants with an environment that is safe, supportive, and supervised.

Target Population /Eligibility:

- The Provider shall serve dependent children who are referred by the Intake Placement Advocate (IPA) or SafePlace staff that meet the provider's written admission criteria. Place of Hope's Joann's Cottage serves pregnant teenage girls, between the ages of 13 and 18 who are exhibiting emotional and behavioral difficulties. These teen parents and their infants require long-term foster care in a group setting that enables them to take responsibility for their lives and their children's future.

# of Clients served:

- 10 Teen mothers and 6 infants.

Outcome Measures:

- Percentage of children who are free from incidents of verified abuse/ neglect while in the residential program.
- Percentage of clients who are free from incidents of child-on-child abuse in each residential program.
- Percentage of children in the program 30 days or more who have received at least one physical and follow-up care as recommended during the year
- Percentage of children residing in the program for 30 days or more who have received annual and semi-annual dental visits and follow-up care as recommended during the year.
- Percentage of files containing up-to-date medication logs for each child in the program who is prescribed medication.

Residential Group Care

Provider Name: Chrysalis Health (Monarch House)

Description: (*Located in Broward County*)

- Residential group care program services shall ensure the safety and well-being of dependent children while providing twenty-four hour a day room, board, care, and supervision that addresses each child's physical, social, and emotional needs. The Chrysalis Center's STARRT (Sexual Trauma and Risk Reduction Treatment) Specialized Therapeutic Group Home Program at Monarch House is a specialized program designed to provide treatment to sexually aggressive boys who require specific intensive sexual behavior treatment.

Target Population/Eligibility:

- The Provider shall serve dependent children who are referred by ChildNet's Behavioral Health Specialists that meet the provider's written admission criteria. The Chrysalis Center's target population of the group home is sexually reactive teenage boys, between the ages of 13 and 18, exhibiting emotional and behavioral difficulties. These teenage boys require short-term care in a group setting and are in need of 24-hour awake supervision.

- All children must receive a suitability assessment performed by a Qualified Independent Evaluator which indicates a recommendation for therapeutic group home level of care before being placed into this program. The Chrysalis Center, in conjunction with ChildNet, the local Substance Abuse and Mental Health program office, and the local Agency for Health Care Administration (AHCA) office will determine eligibility for all children in need of residential therapeutic group care program services based upon the recommendations of the client's suitability assessment. All referrals shall be initiated by ChildNet's Behavioral Health Specialists.

# of clients served:

- 6 Males

Outcome Measures:

- Percentage of children who are free from incidents of verified abuse/ neglect while in the residential program.
- Percentage of children who are free from child-on-child abuse while in the residential program.
- Percentage of children residing in the program for 30 days or more who have received at least one physical and follow-up care as recommended during the year.
- Percentage of children residing in the program for 30 days or more who have received at least one dental visit and follow-up care as recommended during the year.
- Percentage of files containing up-to-date medication logs for each child in the program who is prescribed medication.
- Percentage of children residing in the program for at least 6 months who demonstrate improved behavior and functioning, as measured by the CGAS, CFARS, or another assessment tool approved by Contract Manager.

- Percentage of children residing in the program for at least 6 months who maintain passing grades (GPA of 1.0 or above) or improve academically in school, based on letter grade average or GED progress.
- Percentage of children age 13 or older residing in the program 6 months or more who are making progress on the IL goal(s) identified in their treatment/service plan.
- Percentage of children residing in the program for 30 days or more who were satisfied with the program at discharge/post-discharge.
- Percentage of requests submitted to ChildNet where 30 day notice is given for the replacement of any child or another unapproved discharge.

Residential Group Care

Provider Name: Jewish Adoption and Foster Care Options (JAFCO)

Description: (*Located in Broward County*)

- Residential group care program services shall ensure the safety and well-being of dependent children while providing twenty-four hour a day room, board, care, and supervision that addresses each child's physical, social, and emotional needs. JAFCO's Group Home provides residential group care and supervision for children in foster care. The program is designed primarily for children who have repeated failed placements and are now in need of a more structured group home setting.

Target Population/Eligibility:

- The Provider shall serve dependent children who are referred by the Intake Placement Advocate (IPA) or SafePlace staff that meet the provider's written admission criteria. JAFCO's group home serves children, between the ages of 6 and 18, exhibiting emotional, behavioral, and/or psychiatric difficulties. These children require a short-term more restrictive group care environment.

# of clients served:

- 8 Males/Females

Outcome Measures:

- Percentage of children who are free from incidents of verified abuse/ neglect while in the residential program.
- Percentage of children who are free from child-on-child abuse while in the residential program.
- Percentage of children residing in the program for 30 days or more who have received at least one physical and follow-up care as recommended during the year.
- Percentage of children residing in the program for 30 days or more who have received at least one dental visit and follow-up care as recommended during the year.
- Percentage of files containing up-to-date medication logs for each child in the program who is prescribed medication.
- Percentage of children residing in the program for at least 6 months who demonstrate improved behavior and functioning, as measured by the CGAS, CFARS, or another assessment tool approved by Contract Manager.
- Percentage of children residing in the program for at least 6 months who maintain passing grades (GPA of 1.0 or above) or improve academically in school, based on letter grade average or GED progress.
- Percentage of children age 13 or older residing in the program 6 months or more who are making progress on the IL goal(s) identified in their treatment/service plan.
- Percentage of children residing in the program for 30 days or more who were satisfied with the program at discharge/post-discharge.
- Percentage of requests submitted to ChildNet where 30 day notice is given for the replacement of any child or another unapproved discharge

Residential Group Care

Provider Name: SOS Children's Village

Description: (*Located in Broward County*)

- Residential group care program services shall ensure the safety and well-being of dependent children while providing twenty-four hour a day room, board, care and supervision that addresses each child's physical, social, and emotional needs. SOS Children's Village provides residential group care primarily designed to provide siblings, who are in foster care, with the opportunity to live together in a nurturing and stable home-like setting.

Target Population/Eligibility:

- The Provider shall serve dependent children who are referred by the Intake Placement Advocate (IPA) or SafePlace staff that meet the provider's written admission criteria. SOS primarily serves sibling groups of two or more children, between the ages of 0 and 18 who are exhibiting emotional and behavioral difficulties. The children's behavior and emotional difficulties has been a barrier to their placement in a family foster home. Although the Provider's primary focus is sibling groups, at their discretion, they may accept children who are not part of a sibling group, as long as they meet the Provider's admission criteria.

# of clients served:

- 72 children

Outcome Measures:

- Percentage of children who are free from incidents of verified abuse/ neglect while in the residential program.
- Percentage of children who are free from child-on-child abuse while in the residential program.
- Percentage of children residing in the program for 30 days or more who have received at least one physical and follow-up care as recommended during the year.
- Percentage of children residing in the program for 30 days or more who have received at least one dental visit and follow-up care as recommended during the year.
- Percentage of files containing up-to-date medication logs for each child in the program who is prescribed medication.
- Percentage of children residing in the program for at least 6 months who demonstrate improved behavior and functioning, as measured by the CGAS, CFARS, or another assessment tool approved by Contract Manager.
- Percentage of children residing in the program for at least 6 months who maintain passing grades (GPA of 1.0 or above) or improve academically in school, based on letter grade average or GED progress.
- Percentage of children age 13 or older residing in the program 6 months or more who are making progress on the IL goal(s) identified in their treatment/service plan.
- Percentage of children residing in the program for 30 days or more who were satisfied with the program at discharge/post-discharge.

- Percentage of requests submitted to ChildNet where 30 day notice is given for the replacement of any child or another unapproved discharge.

Foster Family Group Program

Provider Name: CHOICES Children & Families Consortium, Inc.

Description:

- The Foster Family Group Program is designed to provide foster family homes with specialized services for children who have been removed from their homes as a result of abuse, neglect or abandonment and for whom a regular foster home setting cannot be located or is not equipped to meet the child's unique needs. The program shall create an environment where children develop to their fullest emotional, educational, and social potential. Through foster family group parent staff, the program shall provide supportive, nurturing, and structured home environments for children ages 0 through 17, while providing support services including tutoring, mentoring, counseling and life skills training to prepare each child for adulthood.

Target Population/Eligibility:

- Sibling groups or siblings (ages 0 through 17).
- Sibling groups or siblings (ages 0 through 17) who have been unsuccessful in previous foster home placements.
- Teenagers and/or children (ages 11 through 17) with mild to moderate behavioral problems.
- Children (ages 11 through 17) who have been unsuccessful in previous foster home placements, but for whom specialized therapeutic foster care is not appropriate.

Outcome Measures:

- Percentage of clients who are free from incidents of verified abuse/ neglect while in the program.
- Percentage of clients who are free from incidents of child on child abuse while in the program.
- Percentage of children experiencing no more than one (1) placement change, inclusive of a placement change for discharge
- Percentage of clients where no 30 day notice is given for the replacement of any child or another unapproved discharge
- Percentage of children enrolled in the program 30 days or more who have received at least one physical and follow-up care as recommended during the year.
- Percentage of children enrolled in the program 30 days or more who have received annual and semi-annual dental check-ups and follow-up care as recommended during the year.
- Percentage of children who show improvements while in treatment or maintain their scores after achieving their treatment goals as measured by the Global Assessment of Functioning Scale or similar tool approved by ChildNet's Contract Manager.
- Percentage of up-to-date medication logs completed by foster parents for each child in their care who is prescribed medication.
- Percentage of children residing in the program for at least 6 months who maintain passing grades, improve test scores, or improve academically in school, based on letter grade average or GED progress.
- Percentage of provider's total re-licensing packets submitted timely.

- Percentage of provider's total initial packets submitted within 150 days of the foster parent pre-service training commencement date.

Enhanced Foster Care

Provider Name: National Youth Advocate Program, Inc.

Description:

- The Enhanced Foster Care Program is designed to provide specialized services for children who have been removed from their homes as a result of abuse, neglect or abandonment and for whom a regular foster home setting is not equipped to meet the child's unique needs. The program shall create an environment where children may develop to their fullest emotional, educational, and social potential. National Youth Advocate Program Enhanced Foster Care Program is a community residential treatment program, which is clinically effective, and utilizes a non-institutional approach to mental health, behavioral and psychosocial services for children and adolescents, ages 0 through 17.

Target Population/Eligibility:

- Dependent children who are referred by Intake/Placement staff that meet the provider's written admission.
- **Target Population 1**- Medical and/or Developmental Issues: Youth served at this level of care have medical and/or developmental challenges, but do not meet eligibility for Children's Medical Services or APD services. This level includes youth who have exceptional medical needs including but not limited to a physical disability, medical disability, developmental delay, and/or otherwise compromising health condition. Youth will receive, at a minimum, individualized enhanced foster care services and support for increased supervision needs, coordination, transportation and oversight of medical appointments, and ongoing care and/or monitoring provided by the foster parent.
- **Target Population 2**- Behavioral Issues and/or Social Issues: Youth served at this level of care have mild behavioral and/or social challenges that require an increased level of supervision by foster parents and some degree of professional intervention service. Additionally, these youth may have been denied placement in traditional foster home settings or have experienced multiple placement breakdowns. Youth shall receive individualized supported foster care services, which include weekly in-home intervention services and/or individual counseling services.
- **Target Population 3**- Pregnant Teenagers: Youth served at this level of care are pregnant or have an infant under the age of 2 years old. The youth may have additional mild to moderate behavioral challenges and are in need of medical services through an obstetrician or pediatrician. Youth shall receive individualized supported foster care services, which include weekly in-home intervention services and/or individual counseling services and coordination, transportation and oversight for necessary medical appointments.
- **Target Population 4**- Substance Abuse Issues: Youth served at this level of care are currently using or have recent histories of alcohol and/or drug abuse or addiction and may have a DSM IV diagnosis related to substance abuse. Youth will receive individualized enhanced foster care services and treatment services which shall consist of, at a minimum, a combination of individual and/or group counseling as well as a family educational component.
- **Target Population 5**- Sexual Victimization and/or Sexualized Behavioral Issues: Youth served at this level of care have experienced various problems at home, in school, and/or in the community and are further challenged by issues related to the previous

long lasting effects of being sexually abused and/or sexually exploited. Youth will receive individualized enhanced foster care and treatment services which shall consist of, at a minimum, individual and/or group counseling along with individualized support services. These youth must have been assigned an alert by ChildNet's Director of Service Coordination or designated Intake and Placement staff and will receive, at a minimum, three hours of weekly in-home therapy.

- **Target Population 6**- Oppositional, Behavioral, and/or Mental Health Issues: Youth served at this level of care have behavioral challenges related to current or historical physical, emotional or sexual abuse, neglect, dependency, unruliness, mental health issues or may be on probation for status or delinquency offenses. Youth in this target population have needs that could not be met by other foster care providers and/or have been denied placement in other foster care programs due to their behavioral difficulties. Youth may also be stepping down from more restrictive levels of care. Most youth served under this target population will be between the ages of 12 and 18 years old, but NYAP may also provide services for younger children on a case-by-case basis. Youth will receive enhanced foster care services and treatment services, which shall consist of a combination of individual and/or group counseling along with individualized support services.

Outcome Measures:

- Percentage of clients who are free from incidents of verified abuse/ neglect while in the program.
- Percentage of clients who are free from incidents of child on child abuse while in the program.
- Percentage of children experiencing no more than one (1) placement change, inclusive of a placement change for discharge.
- Percentage of clients where no 30 day notice is given for the replacement of any child or another unapproved discharge.
- Percentage of children enrolled in the program 30 days or more who have received at least one physical and follow-up care as recommended during the year.
- Percentage of children enrolled in the program 30 days or more who have received annual and semi-annual dental check-ups and follow-up care as recommended during the year.
- Percentage of children who show improvements while in treatment or maintain their scores after achieving their treatment goals as measured by the Children's Global Assessment Scale (CGAS) or similar tool approved by ChildNet's Contract Manager.
- Percentage of up-to-date medication logs completed by foster parents for each child in their care who is prescribed medication.
- Percentage of children residing in the program for at least 6 months who maintain passing grades, improve test scores, or improve academically in school, based on letter grade average or GED progress.
- Percentage of provider's total packets submitted timely.
- Percentage of provider's total initial packets submitted within 150 days of the foster parent pre-service training commencement date.

Family Reunification and Strengthening

Constant and Never Ending Improvement

Provider Name: National Youth Advocate Program, Inc.

Description:

- Constant and Never Ending Improvement Pilot Program is designed to respond to the urgent need to safely reunite families and prevent children from entering the foster care system. The program will provide targeted children and families with the necessary supports in an effort to quickly reunify children in the foster care system or prevent entry into the foster care system. The Program is a collaborative effort between ChildNet and its network providers to enhance the quality of the service delivery system provided under the Master Agreement between ChildNet and the Department. Network Provider understands that the joint mission of the Department and ChildNet in entering into the Master Agreement under which Network Provider is serving as a subcontractor to ChildNet is to ensure the safety, permanency, and well-being of the child.

Target Population/Eligibility:

- The program targets children ages 12 to 17 years of age who demonstrate aggressive and acting out behavior, have delinquency involvement and are at risk of being abandoned by their caretaker; children ages 12 to 17 that entered into the dependency system due to ungovernable behavior, have delinquency involvement and have a case plan goal of reunification; and children ages 12 to 17 with ungovernable behavior and delinquency involvement and reside in group home settings with a case plan goal of reunification and have an identified placement. Services shall be provided to expedite reunification and prevent youth from entering or re-entering the foster care system.

Outcome Measures:

- Percentage of children contacted in the home within 48 hours of the referral
- Percentage of children who are reunified with a parent, relative or non-relative caregiver within 90 days of admission
- Percentage of children served for whom Home Base Plans are developed within 14 days of admission
- Percentage of children that have participated in the program and do not enter or re-enter the dependency system after discharge
- Percentage of children that have participated in the program and are free of new juvenile justice involvement
- Percentage of children who maintain passing grades or improve academically in school, based on letter grade average or GPA, who have been enrolled in the program for 30 days or more
- Percentage of children, enrolled in the program for 30 days or more, who demonstrate an increase in school attendance

Independent Living, Post-Secondary Educational Support Services and Aftercare Coordination

Provider Name: Vita Nova Independent Living Services

Description:

- The program delivers Independent Living Services to young adults ages eighteen (18) to twenty-three (23), formerly in foster care under the jurisdiction of Circuit 15, who are eligible for Independent Living Services in accordance with Section 409.987, Florida Statutes. Network Provider shall administer a system of independent living transition services to young adults who are eligible for the Post-Secondary Educational Support Services (PESS) Program, Aftercare Services, young adults who were "Grandfathered" in under the RTI program, and/or youth interested in re-entering into the Extended Foster Care (EFC) and/or PESS Program(s). Independent living services provide a continuum of tangible and intangible skills and knowledge that the youth should have in order to be successful. The emphasis of this program is on providing resources to assist the young adult with job skills as needed, self-sufficiency, education, as well as on-going assessment of each young adult's needs.

Target Population/Eligibility:

- Independent living services will be provided to young adults who are eligible for the PESS Program and Aftercare Services. Young adults who were "Grandfathered" in under the RTI program, and/or youth interested in re-entering into the Extended Foster Care (EFC) and/or PESS Programs who were formerly in foster care, are ages eighteen (18) to twenty-three (23) and meet eligibility criteria regardless of the location of their current address.

- Young adults formerly in foster care, under the jurisdiction of Circuit 15, between the ages of 18 and 23 who require independent living services in accordance with Section 409, Florida Statutes.

Outcome Measures:

- Percentage of young adults contacted by Network provider a minimum of once per month via, phone call, office visit, home visit or field visit. *(Text messaging is not an acceptable form of monthly contact.).*
- Percentage of all youth and young adults served by Network Provider will have a current Independent Living Module updated in FSFN.
- Percentage of youth surveyed, ages eighteen (18) and older, who are not receiving EFC services but are on PESS or are eligible for services and have opted out, will indicate satisfaction with the services received from Network Provider.
- Percentage of young adults attending an approved post-secondary educational institution full-time (9 credit hours).
- Percentage of eligible youth applying for Extended Foster Care will have a written comprehensive Transition and Education Plan and staffing with ChildNet.
- Percentage of all application requests submitted to ChildNet for PESS/Aftercare/RTI renewal/ ETV and EFC services will be complete upon initial receipt.
- Percentage of young adults attending an approved secondary or post-secondary educational institution full-time.

- Percentage of youth surveyed, ages eighteen (18) and older, who are not receiving EFC services but are on PESS or are eligible for services and have opted out, will indicate satisfaction with the services received from Network Provider.

Foster and Adoptive Parent Support

Provider Name: Friends of Foster Children of Palm Beach County

Description:

- Foster/Adoptive Parents Association provides assistance in the provision of supplies and commodities to dependent children primarily residing in the care of licensed foster families and when possible, residential caring agencies, emergency shelters and relative/non-relative placements. Families can access services of the provider through a referral generated by the Dependency Case Manager or from a self-referral. Supplies will be distributed based upon availability.

Target Population/Eligibility:

- Dependent children residing in foster homes or licensed foster care programs that are referred by Child Placing or Child Caring Agencies and meet the Network Provider's approved written eligibility criteria.
- Children and families involved in the adoption program for a period of one (1) year after the adoption becomes finalized, as resources allow.
- Palm Beach County community-based child welfare organizations, including but not limited to ChildNet's Network Providers, with LiveScan services.
- Relative and non-relative caregivers of children under state supervision to keep these children out of the dependency system.

Outcome Measures:

- Percentage of requests for supplies/services that received a response within 5 business days of receipt of referral.
- Percentage of contacts made with the relative/non-relative family within 24 hours of placement.
