Q. The RFP references children whose parental rights have been terminated, are under appeal, or for whom a TPR petition has been filed. Please clarify whether the selected provider will be responsible for active case management of cases prior to termination of parental rights, as well as cases post-TPR (including appeals)?

A. **The selected provider will be responsible for active adoption case management when a termination of parental rights petition has been filed but not yet finalized, when a child is assigned a permanency goal of adoption, and when the termination of parental rights is under appeal. ChildNet will retain primary case management through adoption finalization. The provider will be responsible for post-adoption support after adoption finalization.**
